MARCH 2015

Introducing Essex Crossing at Montserrat— Beverly, MA.

We are proud to introduce Essex Crossing at Montserrat, our new development located on 18 acres in Beverly, MA. This lovely, 16 single family home subdivision offers five beautifully designed, architecturally unique plans featuring many traditional New England-styled details. Each home is constructed to the quality standards set by DiBiase Homes, a second-generation company with over 50 years of combined residential building experience.

The 2500 to 2800 square foot open-flow floor plans of the homes at Essex Crossing at Montserrat include 4

bedrooms, 2.5 bathrooms, a 2-car garage, a master suite, and a large family room. Each will come complete with custom finishing

touches such as crown molding, a variety of flooring options, granite counter tops, and elegant lighting fixtures.

One of the biggest attractions for the development is its location. Conveniently situated less than 1/4 of a mile from the MBTA commuter rail, just off Route 128 and

minutes from downtown Beverly, Essex Crossing at Montserrat provides buyers with the serenity of suburban life along with easy access to urban amenities. More than half

of the development consists of natural open space for residents to enjoy. A cluster of walking/ jogging trails wind through an untouched, natural setting while famous Kelleher's Pond provides a perfect spot to relax on a warm summer day or ice skate during the winter.

For inquires regarding this development please contact Kevin Pietrini of Coldwell Banker Residential Brokerage at 978.882.4172 or Kevin.Pietrini@NEMoves.com.

Highlights from Current Developments

Salem, MA

DiBiase Homes has rung in 2015 by successfully completed Phase II B and has moved on to Phase III. We are pleased to announce the selection Lynch Contractors from Andover, MA as the utility and roadway contractors for the project and we look forward to working with them. We anticipate the roadway for Phase III will be completed by Spring 2015. For inquires please contact Beth Farrenkopf at 888.231.9001 or [click here](#) to visit Strongwater Crossing website.

North Reading, MA

Only two lots remain as we close in on the final phase of the development. Our Topsfield model is currently under construction on Lot 1 and our Andover model is on Lot 2. Delivery for both is scheduled for Summer 2015. These final houses feature a spectacular view of Bradford Pond and provide the luxury of Harold Parker State Forest as a backyard. For inquiries contact our office or [click here](#) to visit our website.
