

## **Sight Unseen General Information**

We feel strongly that it is always best to view the property directly or have a trusted local friend do it for you. However, SERG recognizes that it is not always feasible for everyone to view the property. We will gladly view the property on your behalf, have an extensive and detailed conversation with you, forward photos and video, make you aware of any and all building and apartment amenities, and let you know about neighborhood attractions and local information. With all this information in hand, we hope you can make an informed decision with which you'll be comfortable.
