

HVAC TECHNOLOGIES

PROUDLY REPRESENTS THE FOLLOWING MANUFACTURERS

Air handling units, air-cooled and evaporative-cooled rooftops, cold climate air-source and water-source heat pumps, split systems, digital controls

Variable frequency drives, active front end drives, harmonic solutions, and motors

Mission critical cooling equipment, vertical, wall and ceiling mounted, floor consoles, dry coolers, pump packages

Air handlers, fan coils, water-source heat pumps

Humidity and temperature control for commercial and industrial agricultural applications

Custom all aluminum site or factory built air handling units

Engineered airflow measurement and control, custom solutions for all applications

Prefabricated mechanical penthouses, DX, cleanrooms, hospitals, custom AHUs

Engineered air mixing of outdoor and return air for air handling units

Custom air handling solutions, including build-on-site replacement units

Humidification and evaporative cooling solutions

Active chilled beams, induction diffusers, induction unit retrofits

Total environmental desiccant dehumidification solutions

High efficiency electronic air cleaners

VAV terminal units, fan coils, air handling units

Axial fans for HVAC, smoke, tunnel, garage ventilation

Variable refrigerant flow (VRF) systems, energy recovery ventilators, dedicated outdoor air, indoor units, controls, air-to-water heat pumps

SmartStack™—Active airflow measurement and control of laboratory exhaust systems

COOLING SOLUTIONS
Air and water-cooled medical, process, Turbocor chillers

The largest family of custom air handling units in North America

- Governair
- Huntair
- Mammoth
- Temtrol
- Venmar
- Ventrol

Precision airflow control for fume hoods, laboratory, critical healthcare environments

Dehumidification, heating, cooling, ventilation systems for indoor pools

Airflow and pressure measurement and control for ducts, fans, outdoor air intakes

Advanced exhaust systems for laboratory fume hoods, energy recovery systems

Fans for commercial and industrial applications, standard and semi-custom available

Commercial packaged rooftops and condensing units

Dedicated outdoor air units, makeup air units, exhaust fans

Energy recovery wheels

Indoor, packaged, light commercial AHU, DOAS systems

Ultraviolet (UV) products for all HVAC applications

Engineered noise mitigation products for ducts, panels, enclosures, mechanical vibration solutions

Newburyport Office
39 State Street
