

Streamline Communities New Home Safety Practices

Based on the COVID 19 guidance from the State Administration and Realtor Associations, we want you to know that we have instituted the following safety practices to better protect the safety of our homebuyers and sales teams:

- Through **April 8, 2020**, our sales centers will remain open online only. Call or e-mail our sales team for virtual viewing of our community and homes
- Starting **April 9, 2020**, our sales centers will be open for scheduled appointments only.

Homebuyers can:

- Call the sales center to schedule an appointment with no more than two individuals attending.
- Visit the sales center at your scheduled time.
- Use sanitizer upon entering.
- Avoid handshakes.
- Practice social distancing.
- Any employee staff or homebuyer with cold or flu symptoms or who has a family member that may be feeling ill has been instructed to stay home.
- Our sales centers and model homes are being cleaned regularly.
- Sales consultants are also conducting supplemental cleanings throughout the day.
- If you prefer to view online, we can still facilitate the viewing, financing, purchase, and closing virtually.
