Privacy Pod

Privacy Pods

BUILD AND OPTIONS

Oregon Corrections Enterprises is introducing the Privacy Pod. This modern self-contained workspace provides a quiet, secure, and comfortable environment for phone calls, virtual meetings, and focused tasks. The pod is built with a combination of steel and aluminum along with sound-deadening materials that support long term durability and acoustic control. Its compact 48 inch by 48 inch footprint and 84 inch height make it suitable for offices, campuses, or public spaces.

The full glass door is constructed from 3/8 inch tempered clear laminated glass with a flat polished edge. Inside, sound reducing materials and a silver neutral fabric interior create an acoustically controlled space where conversations remain private. The Privacy Pod provides approximately 30 decibels of noise reduction so speech inside the pod cannot be heard outside while the occupant can still hear essential alerts or emergency notifications. The interior features an electric-adjustable work surface that raises or lowers at the touch of a button, allowing each user to create a comfortable and ergonomic workspace. Motion activated 4000K integrated LED lighting and an automatic ventilation fan turn on as someone enters and help maintain a bright and comfortable environment. Red occupancy lights signal clearly from across the room when the pod is in use.

Built-in charging outlets provide convenient device support, and the pod connects to a standard 120 volt 15 amp power source for simple installation.

The OCE Privacy Pod brings together quality materials, thoughtful design, and practical functionality. It offers organizations a reliable and modern solution for private conversations and focused productivity.

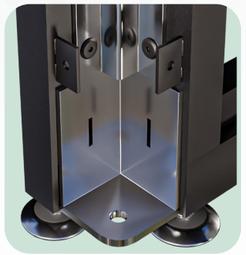

SPECS	
Sound reduction	30 dB
Work-surface dimensions	16" Deep x 27" wide 20" height-adjustable
Light activation	Motion activated with 15-minute timer
Interior connectivity	2 ea 110 V outlets, 2 ea USB Type-C, 1 USB Type-A
Fan	104 CFM / 19 dB motion-activated
Glass material	3/8” laminated tempered glass
Construction	Aluminum frame with 1/2" soundboard, plywood, vinyl acoustical mass, and exterior laminate
Exterior dimensions	48”x 48” x 84"
Interior dimensions	42” x 42” x 80"
Total weight	881 lbs
Power requirements	120 V, 15 A
Warranty	1 year electrical components / 5 year construction

Adjustable feet on each corner for easy leveling

Concealed ultra-quiet 19 dB dual fan

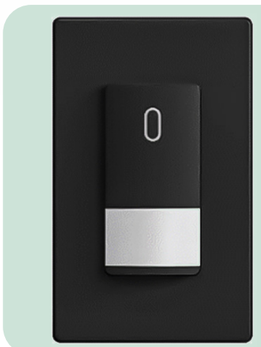

Solid corner brackets for securing to uneven floors

Height adjustable work surface with 20” of travel
Two 110 V outlets
USB-C and USB-A for power convenience

Integrated flush
4000K LED lighting

Integrated 15-minute occupancy sensor

OREGON CORRECTIONS ENTERPRISES

About OCE

Oregon Corrections Enterprises (OCE) provides voluntary, real-world work and training opportunities that help adults in custody (AICs) build job skills, strengthen work ethics, and prepare for successful reentry into their communities. Participants apply and interview for positions, gaining experience in technical, professional, and administrative fields using modern tools and systems.

Through partnerships with businesses, nonprofits, and public agencies, OCE delivers high-quality products and services while aligning training with Oregon's workforce needs. As a self-sustaining, semi-independent state agency, OCE operates like a private-sector business, expanding opportunities inside correctional facilities and supporting safer, healthier communities across Oregon.
